

High School Visits Highlights

October 5.2009

American International High School students visit

Seven students from this private high school in Skopje visited the American Corner with their English Language teacher. The AC Staff played the short informational video and briefly explained the member's benefits. Two Peace Corps volunteers were invited to play the game Taboo with the students, which turned out to be not just a lot of fun, but also a great way to learn new words.

October 16.2009

Visit of high school students from Kavadarci

A big group of 44 high school students visited the American Corner on October 16. As this was the first visit of the corner for most of them, the Staff talked about how to become a member, the monthly program, the information that can be found on the facebook page, the services the Educational center offers, the YES Scholarship, etc.

All of these students became members.
